- Based in London

HI,

I'm a funny and friendly person highly motivated and passionate about Visual Effects. I like to learn new things from inspiring people and by asking the right questions. I can acquire so much knowledge. I love working on exciting projects together with a team, who is driven by the same passion as I am.

Windsurfing is another part of my life: Training hard, crashing harder, chasing the elements and pushing boundaries are a few reasons why I love this sport so much.
